Non-work related: Hook of the curtain caught on eyelid

Target audience for this newsflash

- TW Community
- TWC Community

What happened

On 18th October 2013 at 0500hrs the IP's eyelid was caught on the curtain hook while he was descending from his bed (top) and resulted approx. 1-2mm cut on his left outer eyelid. He was immediately treated by the Medic on board and sent to Panaga Health Centre for further treatment.

Why it happened

The investigation is still on-going.

Suggested toolbox/safety meeting questions

- Are all hazards inside the accommodation been identified and reported?
- Have you done any room checks e.g. hazard hunt upon checking in the room?
